

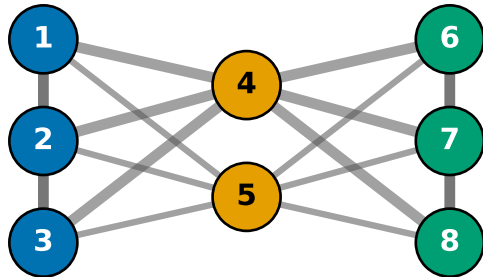

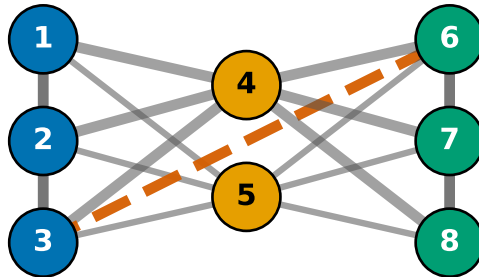

Figure 1 — Benchmark anatomy

A: base graph ($\varepsilon = 0$)
planted $I = \{1, 2, 3\}, B = \{4, 5\}, E = \{6, 7, 8\}$

B: perturbed graph ($\varepsilon = 1$)
dashed = added 3-6 leakage edge

C: ambiguity graph
sparse interface: 3-4, 4-6, 2-5, 5-7
